Message from the President

The rains haven't stopped, but they are forecast to decrease. When that happens, California will return to its normal desert climate and we can begin to reap the benefits of our new aerator and roller, which when paired with controlled watering should give us better greens than we have ever known.

Special General Meeting held on Feb 25th

Forty-two members attended a general meeting held on Saturday, February 25th and voted to approve the purchase of an \$11,110.00 roller for our greens. The motion passed unanimously.

The new roller will provide a wonderful upgrade to our current equipment, which is limping into retirement way past its prime. Our greens, already known as the best in Southern California, will run even truer and quicker as a result of this change.

The board of directors and the greens committee thank our members for their support!

It has been a difficult year for the green's committee with all the rain we have been having. They are doing a fantastic job of maintaining the greens and we should all give thanks to Bruce Williams who took over the greens maintenance this year, and to John MacDonald and Tom Hargraves who looked after them in previous years. Thanks to past and present care, they are in great shape.
